

Kerolos Nasser

Front-End Developer

+201211730727 /kero-nasser /KerelosNasser

PROFESSIONAL SUMMARY

Highly motivated and detail-oriented front-end developer, backed by a Meta Front-End Developer Certificate. Eager to leverage skills in UI/UX principles to contribute to a dynamic team. Project work.

PROJECTS

Advanced_e_commerce

A web application that allows users to browse and purchase products from a variety of categories with great sorting algorithm.

- comprehensive user-friendly experience for user satisfaction
- seamless workflow & connected functionality in the web app
- a Review section to allow the user to provide a feedback with a stars sorting algorithm
- an advanced cart & checkout pages that handle payment very well

Global Environmental Impact Dashboard (React)

An interactive data visualization dashboard to raise awareness about climate change.

- Showcased advanced React patterns, state management with React Query, and data storytelling.
- Created multiple interactive chart types (line, area, composed) using Recharts.
- Ensured a fully responsive design and implemented smooth animations with Framer Motion.

Little Lemon Restaurant (Front-End)

modern, responsive front-end application which allows users to learn about the restaurant, and book a table. This project was developed as a capstone for the Meta Front-End Developer Certification

- Demonstrated core web development skills in HTML, CSS, and JavaScript/React.
- Focused on creating a user-friendly interface and a positive user experience.
